NEW TOOLS TO HELP WITH PROGRAM PLANNING

http://www.scouting.org/scoutsources/Membership/New_Units.aspx

Gone is the outdated video. Two new PowerPoint presentation shows were added to the National website to assist Packs and Troops in their unit program planning efforts. There's also a link to the planning portion of the online Venturing Officers' Orientation.

This is a great opportunity for Unit Commissioners to meet with their Pack, Troop or Crew Unit Leaders (or Committees). Program Planning is one of the main keys to the success in Scouts. Commissioners can have a lasting impact on their units if they help them succeed with this training.

E-MAIL ADDRESSES & TRAINING

ScoutNet is the main database of training and registration information for BSA. Based on the current stats, we are missing e-mail addresses from 20% of our Commissioners and 82% are Untrained. E-mail will be a key method of disseminating information to Commissioners and we don't need to tell you how important it is to be trained. *PLEASE help us update our e-mail addresses and get every Commissioner trained.*
