DETAILED UNIT ASSESSMENT

UNIT ASSESSMENT

Detailed Assessments should be conducted at least twice each year at six month intervals. A third assessment may be valuable when there is a change in unit leadership.

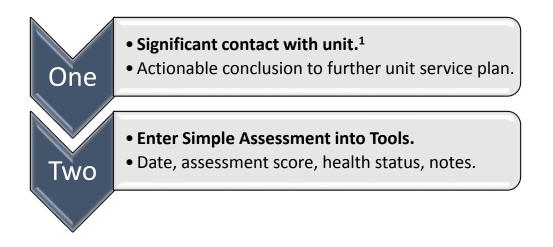

- (1) Step Four: Commissioner Assessments can be completed using the pdf form and then entered into Commissioner Tools –or– entered directly into the system (bypassing the form).
- (2) Step Five: The Unit Service Plan is <u>not</u> generated by Commissioner Tools. The Plan is customized for each unit using the Commissioner Assessment information.

SIMPLE UNIT ASSESSMENT

UNIT ASSESSMENT

Simple unit assessments are used when there is routine contact or an update to a specific item of interest. Simple assessments should be correspond to items in the Unit Service Plan.

(1) Step One: All of a commissioner's unit contacts need not be in person or at unit meetings. Telephone conversations, emails, text message exchanges and casual meetings can all result in significant contacts.

CONTINOUS IMPROVEMENT

Remember, this process is a cycle.
